

Concrete Repair

Competence Class	Name of Competence Class	Background/Prior experience	Necessary supplementary courses	Experience	Type of experience
RPK3	Production and quality control manager, execution class 3	University, University college or Vocational college, construction-related	U1 and R	2 yrs	Concrete repair work in execution class 3
RPK2	Production and quality control manager, execution classes 1 and 2	Trade certificate in the construction industry	U1 and R	2 yrs	Concrete repair work
		Unrelated trade		5 yrs	Concrete repair work
		No educational qualifications required – knowledge gained through documented practical work experience		5 yrs	Concrete repair work
RFB	Foreman/tradesman (“bas”), all execution classes	Trade certificate in the construction industry	U1 and R	2 yrs	Concrete repair work
		Unrelated trade certificate		5 yrs	Concrete repair work
		No educational qualifications required – knowledge gained through documented practical work experience		5 yrs	Concrete repair work
RPK3+EL	Production and quality control manager, electro-chemical re-alkalization and chloride extraction, execution class 3	University, University college or Vocational college, construction-related	U1, R and RE	2 yrs	Concrete repair work in execution class 3, with at least 6 months at electro-chemical methods
RPK2+EL	Production and quality control manager, electro-chemical re-alkalization and chloride extraction, execution class 2	Trade certificate in the construction industry	U1, R and RE	2 yrs	Concrete repair work in execution class 2, with at least 6 months at electro-chemical methods
		Unrelated trade certificate		5 yrs	Concrete repair work in execution class 2, with at least 6 months at electro-chemical methods
		No educational qualifications required – knowledge gained through documented practical work experience		5 yrs	Concrete repair work in execution class 2, with at least 6 months at electro-chemical methods
RFB+EL	Foreman/tradesman (“bas”), electro-chemical re-alkalization and chloride extraction, all execution classes	Trade certificate in the construction industry	U1, R and RE	2 yrs	Concrete repair work in execution class 1, 2 and 3, with at least 6 months at electro-chemical methods
		Unrelated trade certificate		5 yrs	Concrete repair work in execution class 1, 2 and 3, with at least 6 months at electrochemical methods
		No educational qualifications required – knowledge gained through documented practical work experience		5 yrs	Concrete repair work in execution class 1, 2 and 3, with at least 6 months at electro-chemical methods
